

Rainfall Forecast Somalia

Issued: 04/10/2016

Saadaasha Roobka Soomaaliya

Soo Baxay: 04/10/2016

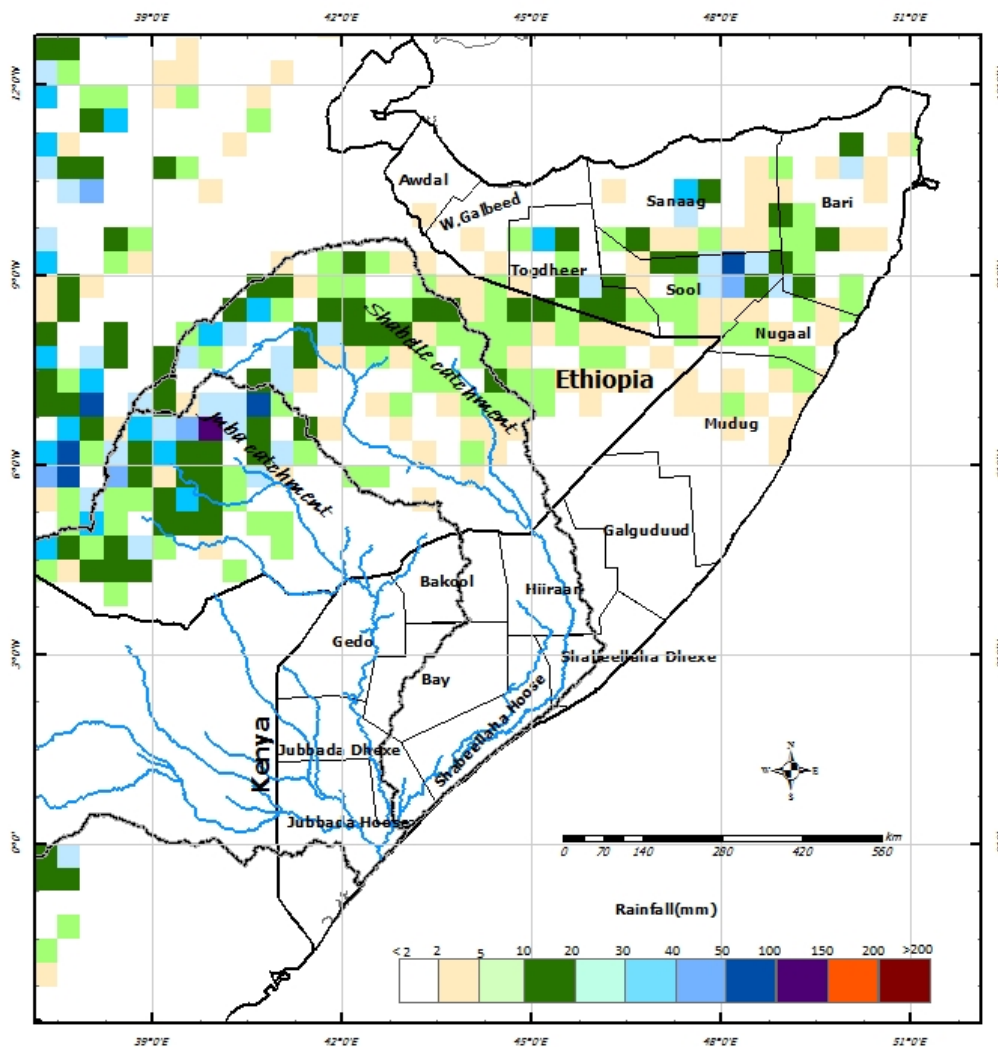

Food and Agriculture Organization
of the United Nations

Some parts of the Somalia have recorded moderate rains within the last one week which could be a possible start of the Deyr rainy season.

The rainfall forecast for the next three days points towards light to moderate in parts of Puntland Somaliland as well in the upper parts of the Ethiopian highlands. The rest of the country is expected to remain dry during the same period.

3-day accumulated rainfall forecast (04/10/2016 to 06/10/2016)

Each cell on the map represents the forecasted accumulated rainfall over the next 3 days / *Xubin walba oo naqshadda koorkeeda ah waxay muujinaysaa guud ahaan saadaasha roobka ee saddexda maalmood ee soo socota*
