

Rainfall Forecast Somalia

Issued: 28/04/2016

The last 24 hours continued to see an increase of rainfall amounts in many parts of the country with some stations recording over 50mm in some parts.

The three days forecast is calling for more rains across the country. However, there will be a reduction of rainfall amounts in Bari and Nugaal regions located in Puntland. Heavy rains are also expected in the Ethiopian highlands during the same period. There is a **moderate** risk of flooding in middle and lower Shabelle in the coming days.

3-day accumulated rainfall forecast (28/04/2016 to 30/04/2016)

Each cell on the map represents the forecasted accumulated rainfall over the next 72 hours
